

Why a national campaign?

Because 15 minutes of reading aloud each day can change the face of education in this country.

We all agree there is an education crisis in this country, beginning with kindergarten readiness. There are tens of thousands, if not hundreds of thousands, of organizations working on the problem — yet the solution remains elusive.

Imagine...

...if those talents and energies were united behind one key strategy to improve U.S. education.

...if community leaders, employers, day care providers, preschools, schools and civic and faith-based organizations echoed that same message.

...if parents and caregivers across the country repeatedly heard one clear and straightforward directive on how to improve their child's readiness to learn.

...if we all united behind one simple and powerful message: Read Aloud 15 MINUTES. Every child. Every parent. Every day.

Facts:

- Parents are a child's first and most important teacher.
- Reading aloud is the single most important thing a parent or caregiver can do to improve a child's readiness to read and learn.
- By making 15 minutes of daily reading aloud the new parenting standard, we **will** change the face of education in this country.

What will make the 15 MINUTES movement work?

Successful campaigns have 4 things in common:

Just as the ADA and Procter & Gamble made daily tooth brushing the norm with their “Look Mom, no cavities” campaign in the 1950s; just as the federal government declared war on smoking in 1973 and drastically diminished smokers’ ranks; just as Mothers Against Drunk Driving made “One for the Road” taboo; just as the Komen Foundation made the pink ribbon ubiquitous and breast cancer research a priority; so too can we turn daily reading aloud for 15 minutes from a recommendation into a parenting “must.”

The 15 MINUTES Movement is bringing together a passionate group of partners. Though each has a diverse audience and mission, they are united behind the idea that 15 minutes of daily reading aloud from birth to age 8 can change the face of education in this country. The partners are reaching out to their unique constituencies — community groups, day care providers and schools, businesses, employees,

libraries and faith-based organizations — to spread the word. Their goal is to have every American child ready to read when entering kindergarten and continuing to build skills throughout early school years. This is only possible by beginning to read to children at birth.
