BACKPACK CONNECTION SERIES:

TIPS FOR BEDTIME: www.firstfivebeyond.org

Bedtime is a daily opportunity for you to build and nurture a positive relationship with your child. Predictable routines make children feel safe and secure. When you provide a predictable bedtime routine, you are teaching your child the skills she needs to relax and transition from the busy activity of the day to preparation for sleep. When your child is able to get a restful sleep, you will also feel calmer. A successful bedtime routine will make you feel more rested regularly and prepare you both for shared days of family fun and learning.
