LIFESPAN IS CLOSED
PROFESSIONAL DEVELOPMENT DAY

March has a lot of fun ahead! We will celebrate Read Across America with a spirit week of daily themes. Parents, please be sure to check with your child's teacher if you would like to sign up to be a guest reader and sign up on the sign up sheet if you would like to participate. Plan to bring one or two of your family's favorite books to share with the class. Reading to the class should only take about 10-15 minutes.

We will be participating in a new online fundraiser starting March 4th. Sales will run until March 15th and orders are set to be delivered to LifeSpan on March 27th. Families will be able to purchase a variety of chocolate covered pretzel treats. All profits of the fundraiser will go towards our outdoor learning experiences and school garden.

Our Monthly Safety Topic is **Mealtime Success**. This month we focus on how to provide structured meal times for happy and healthy young children. Are you a family looking to transition your child onto solid foods? Every child is different, but all families should consider the following before starting solid foods. Is your child able to keep his/her tongue in their mouth most of the time? Does your child watch you eat and act like he/she would like to do the same? Can your child remain in a sitting position without falling forward or to the side? Infants can typically do these three things by the age of 4-6 months. Remember to always check your infant's cues before starting solid foods! Remember to check parent communication boards for more information on this important topic. Happy eating!
